

In 4 months, Overture's listings for Vietnam swapped out entries equal to 30.6% of their starting count. Their total moved 0.9%.

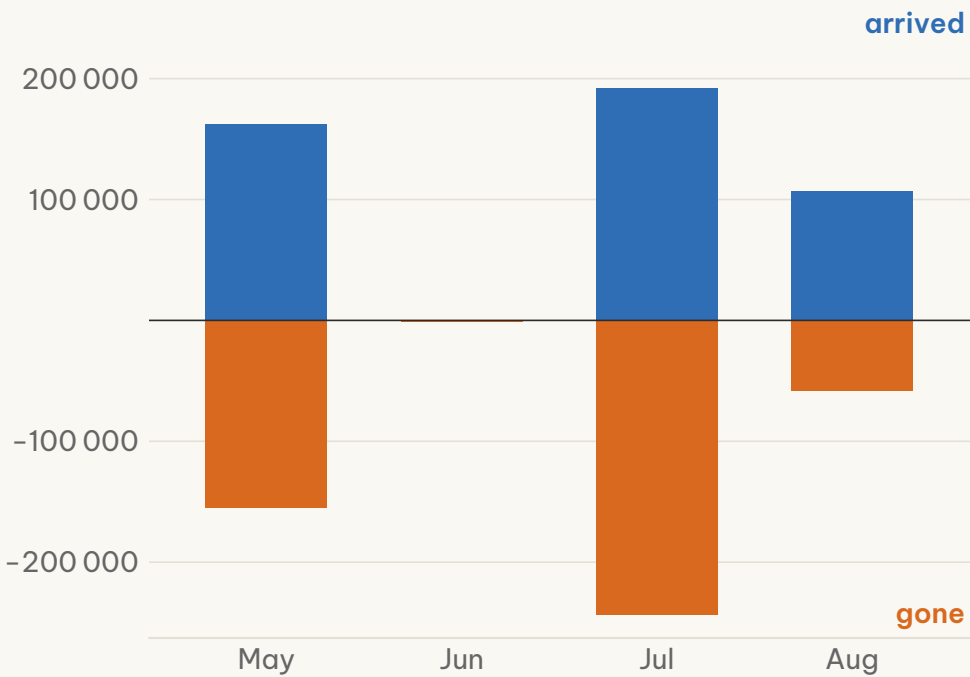

Most of what changed is listings swapped in and out of the data, not the dataset growing or shrinking.

Listings that arrived or left, by province:
(arrived + gone) ÷ listings in April 2026

Confirmed listings arrived and gone, by month

Meta supplied 99.6% of the listings that arrived or left.
